

4 Types of Soil

01

The Wayside

This soil is the heart that has NO understanding. As soon as they hear the Truth of the Word it is stolen.

02

Rocky Soil

This soil has a lot of rocks that prevents deep growth. The lack of depth causes the word to die once hard times come because the roots cannot grow deeper.

03

Thorny Soil

This soil had a lot of growth but thorns came in (cares, deceit and lust) and choked the plants and caused them to BECOME unfruitful.

04

Good Soil

This soil is tilled, free of rocks and thorns and produces a big harvest from the word of God! This is the ideal soil.
